

Milestone CD Drive

Insert. Copy. Enjoy.

The Milestone CD Drive is the perfect supplement for Milestone 212 and 312 to easily copy CDs to Milestone. There is no need of a computer anymore. Just copy music, books and other CD content directly to your Milestone.

The newest Add-On for Milestone 212 and 312 is a fancy, lightweight CD drive. Connect it to Milestone and by pressing a single button all common audio and data CDs are copied quickly to the SD card in your Milestone. Music CDs are automatically converted into MP3 or WAV files, so you do not need a computer anymore. Experience the superb quality of our MP3 encoder - rated best of the world, compared with similar encoders on the computer.

The handling is done via Milestone and is as simple as always. The provided connecting cable simultaneously powers Milestone and the CD drive and therefore ensures a smooth copying process.
